OBJECTIVE

MCA graduate with hands-on experience in AI data operations, including evaluating and rating AI-generated responses, data annotation, and quality review. Proficient in Python, SQL, Excel, and Power BI. Looking for opportunities in data analysis, AI operations, or software roles where I can apply my analytical and technical skills to deliver high-quality results.

EXPERIENCE

LLM Model Trainer | EtharaAI | 🔗

- Reviewed AI-generated responses on Multimango platform and rated them based on quality dimensions like accuracy, relevance, and coherence
- Provided structured human feedback to help AI models learn which responses are better — contributing directly to model training and improvement
- Justified ratings with clear reasoning, ensuring feedback was consistent and aligned with evaluation guidelines
- Participated in calibration sessions with Quality Leads to maintain rating consistency across the team

Data Analyst | Uptoskill | 🔗

- Mined and validated large datasets using Python (Pandas, NumPy) and SQL to extract structured insights
- Built Power BI dashboards to track data quality metrics and support data-driven decisions
- Applied pattern recognition to identify dataset inconsistencies and ensure high data integrity
